<h2 style="padding: 50px; margin: 50px; word-spacing: 15px; text-align:
center ;line-height:
1.6;">
China, India and the United States are among the countries in the world
most
affected by natural disasters. Natural disasters have the potential to
wreck and even end the lives of those people, who stand in their way.
<br><br> However, whether or not you are likely to be
```

```
affected by a natural disaster dramatically depends on where in the world
you live, The objectiveofthe project is to human build a web application
to detect the type of disaster. The input
is taken from the in-built webcam, which in turn is given to the
pre-trained model. The model predicts the type of disaster and displayed
on UI. </h2>
